Course Description:

This three-session webinar series, Universal Design Daily, will explore the categories of action, expression, representation, and engagement for a variety of students that a teacher may encounter in a classroom. The focus will be on options that support students sharing what they know and can do. Sessions will also look at ways for presenting material, boosting comprehension, and making concepts accessible and “sticky.” Finally, participants will examine ideas for creating “moments” in lessons and teaching to fascinations.

Session 1: Show, Tell, and Model: UDL Representation Ideas – In this first session, participants will look at perception and comprehension and strategies related to approaching content and illustrating ideas. Participants will examine ideas for presenting material, boosting comprehension, and making concepts accessible and “sticky.”

Session 2: Pass the Rubber Chicken: UDL Engagement Ideas – In this second session, participants will explore engagement of learners. They will look at affect as it relates to learning and learn about strategies related to motivation, relevance, community, connection, and choice. There will also be a focus on ideas for connecting with individual students, creating “moments” in lessons, promoting wonder, and teaching to fascinations.

Session 3: Provide a Path: UDL Action and Expression Ideas – In the final session, participants will explore the learning differences of students and the underlying habits of mind related to “teaching them all.” It will look at options that support students in sharing what they know and can do as well as examine ideas for assessment and demonstration of learning.
