And
The Idaho Project for Children and Youth with Deaf-Blindness
Center on Disabilities and Human Development
College of Education
University of Idaho – Boise
Who Should Attend?  *Teachers*  *Related Service Personnel*  *Paraprofessionals*  *Families*

The Presentation:  Universal Design for Learning or UDL is a way of thinking about how we can reach all learners and help them to meet their full potential (CAST, 2011). The UDL framework is articulated as three principles: (a) multiple means of engagement, (b) multiple means of representation, and (c) multiple means of action and expression. When educators understand these ways of providing instruction, and take on a mindset that learner variability is a resource, it can lead to powerful reform for all learners. In this workshop, the UDL framework will be presented and connected to instructional strategies for all learners, which include students with multiple disabilities, visual impairment, and hearing impairment. Workshop participants will learn about the UDL framework and how to apply it in ways that will make their learners motivated, purposeful, resourceful, knowledgeable, strategic, and expressive.

About the Presenter:  Dr. Hartmann is an Assistant Professor of Education at Lasell College in Massachusetts. Prior to Lasell, she was a postdoctoral fellow in Universal Design for Learning (UDL) at Boston College and CAST. She graduated from the Joint Doctoral Program in Special Education at the University of California, Berkeley and San Francisco State University. She is a licensed special educator and teacher of students with visual impairments and blindness. She has taught at the Perkins School for the Blind, the California School for the Blind, and has worked as an itinerant teacher and consultant. In her research, she examines how the UDL framework can be used to support pre-service teachers and learners with multiple and complex special needs.

Place:  Hampton Inn & Suites– Boise, Spectrum – I-84 at Overland & Cole Roads – Boise, Idaho  
Date:  June 17 & 18, 2013
