Adult Services

This section has information you will need when you are applying for or using adult services.

You may include contact information for the service agencies that you will be working with to meet your needs.

Examples of information to keep in this section might include:

- Vocational Rehabilitation - forms and information from
  - Idaho Division of Vocational Rehabilitation or
  - Idaho Commission for the Blind and Visually Impaired
- Medicaid eligibility letter
- Individual Service Plan (ISP)
- Support and Spending Plan (self-direction)
- Contact information for your Service Coordinator
- Contact information for the local office of:
  - Idaho Division of Vocational Rehabilitation
  - Dept. of Health & Welfare, Medicaid
  - Idaho Commission for the Blind and Visually Impaired
  - Private Service Agencies
  - Independent Living Center
  - DisAbility Rights Idaho
- Work Incentives and Benefits Planning Summary
Medicaid Services for Adults

Medicaid is a state program for providing medical services to people who have a low income and/or have a disability. The services are paid for with public money (taxes) through federal and state government. If you are eligible for Medicaid, these are just some of the services that may be covered under the Medicaid Basic Plan: doctor and nurse visits, hospital, dental, occupational therapy, physical therapy, speech and hearing therapy, vision, chiropractic, counseling, mental health, hearing, home health, prescription drugs, school-based services, medical equipment and supplies.

Under the Medicaid Enhanced Plan for people with disabilities these additional services may be covered: case management services (service coordination), developmental disability services, developmental therapy, home and community-based services, hospice care, mental health clinic, psychosocial rehabilitation, personal care services, and nursing homes.

Adults who are eligible for Medicaid work with the Idaho Medicaid Care Management program for access to developmental disability agency services, service coordination, and developmental disability waiver services. (In order to be eligible for waiver services a person must have a low income; must have a primary diagnosis of intellectual disability or a related condition; and must qualify based on a functional assessment, maladaptive behavior, a combination of both, or a medical condition.)

Skill Development

Developmental Disabilities Agency services actively promote personal skill development through individual or group therapy in the home, community or a center. Some of the services that Developmental Disabilities Agencies provide include: developmental therapy, speech therapy, occupational therapy, and physical therapy.

Housing and Living Supports

A variety of housing and living supports are available for people with developmental disabilities, depending on their personal interests and needs. In addition to options below, there are many community housing and supports programs available to the general public that can be used for people with specialized support needs:

- Family homes are the first choice of many children and adults with developmental disabilities and their families. Supports and services are available to enhance each family’s capacity to support family members with developmental disabilities;

- Many adults choose to live in their own home or apartment and use a variety of community resources and specialized supports. Adults who meet the criteria for Developmental Disabilities (DD) Waiver Services are
eligible for additional supports, like supported living, chore services, environmental modifications, and home delivered meals.

- Certified Family Homes are available to adults with developmental disabilities and are generally limited to two or three non-family members in each home.

- Licensed Residential and Assisted Living Facilities are group living arrangements for adults who have varying needs for support.

- Intermediate Care Facilities for people who have developmental disabilities are group living arrangements for adults or children with developmental disabilities and intense needs to support. Children and adults must meet an institutional level of care in order to live in these facilities.

For more information about housing and living supports for people with developmental disabilities, contact the regional Developmental Disabilities Program (a list of local offices is included in Section 8 Resources)

For more information about these services go to the Idaho Department of Health and Welfare website at [http://www.healthandwelfare.idaho.gov](http://www.healthandwelfare.idaho.gov)

### How to Apply for Adult Developmental Disability Services

**Step 1:** Apply for Developmental Disability services through your Regional Medicaid Services Unit (a list of local offices is in Section 8 Resources). Your application, and any information documenting your eligibility, will be sent to the Idaho Center for Disabilities Evaluation.

**Step 2:** Your application will be reviewed by an Independent Assessment Provider (IAP).

**Step 3:** The IAP will contact you, your guardian, or other representative and schedule an appointment or an interview.

**Step 4:** Go to the interview. Make sure you bring your guardian, a friend, or another person that knows you very well to the appointment.

**Step 5:** The IAP will complete an assessment that includes:

- An interview with you and any other person who can help provide information.

- An interview with a person who knows you very well and can answer the questions on the Scales of Independent Behavior–Revised assessment tool.

- Signatures on Release of Information documents in order to gather more information about your disability.
• A Medical Care Evaluation Form that must be completed by your primary
  physician (you might need to schedule a visit with your physician to get a
  physical examination so the form can be completed).

• A needs inventory that will help Medicaid calculate your annual budget for adult
  DD services.

Step 6: After the appointment, the IAP will determine if you’re eligible for DD services
  and send a notice to let you know.

Step 7: If you’re eligible for DD services, the notice will include the amount of your
  annual budget. If you’re not eligible, you can request an appeal by returning
  the denial notice to Administrative Procedures.

Step 8: If you’re a Medicaid participant and are eligible for DD services, the IAP will
  ask you to choose whether you would like to self direct your services or
  pursue traditional services. If you select to get traditional services, the IAP
  will give you a list of agencies that can supply a plan developer. You will be
  asked to fill out the Plan Developer Choice Form.

Step 9: You and your plan developer will organize your person-centered planning
  team. You can also choose to contact a Person-Centered Planning
  Specialist to help you with person-centered planning.

Step 10: You and your team will evaluate your needs and goals and develop an
  Individual Supports and Services Plan for you.

What is the My Voice My Choice
Self-Directed Services Option?

My Voice My Choice is the name of Idaho’s self-directed option for Medicaid services.
Anyone who can get Developmental Disability (DD) Waiver services can choose to self-
direct their services. The My Voice, My Choice option was designed to follow main
ideas of self-determination. This option gives you more choice and control over the
Medicaid funds used to buy your services and supports. You choose the services and
supports that fit your needs. You decide when and where you get services and
supports. You hire the people you want to help you. You keep track of your Medicaid
budget account.

How Does Self-Direction Work?

If you are eligible for Medicaid waiver services and choose to self-direct your services,
you get an Individual Budget that you are able to use to buy the services, supports
and goods you need for one full year. Your budget amount is decided by an
assessment that you do with the Independent Assessment Provider (IAP).
You work with a Support Broker that you hire to help you direct your services and supports, get the information you need to make decisions and make a plan to spend the money in your budget account.

You write a Support and Spending Plan with help from your support broker. The plan includes all the services, tasks and goods that you will pay for with your budget. You can also choose family, friends and people you trust to be your Circle of Support and help you with this planning during Person Centered Planning.

Community Support Services are the services, tasks or goods listed on your Support and Spending Plan. These are the support you need each day to reach your goals. Goods are equipment and medical supplies that you buy to help with your disability.

Your Support and Spending Plan will be sent to the Regional Medicaid Services office for approval. Your individual budget amount and approval of your plan goes to the Fiscal Management Services provider. Fiscal Management Services keep track of all the money and will pay for your services and supports with money from your budget account.

A Community Support Worker is a person that you hire to help you. A community support worker can be someone who works for a service agency or someone who does not work for a service agency.

How Do I know if self-direction is right for me?

My Choice, My Voice may be right for you if:

- You are eligible for the Developmental Disabilities Waiver
- You want to have more choices and flexibility in your services and supports
- You want more control over how you spend your Medicaid budget account
- You want to hire and manage your own workers and hire people you know
- You understand and are willing to accept the extra risks, responsibilities, and duties

The questions below may help you decide if self direction is right for you:

- Am I living the life I want?
- Am I happy with the services and supports I have right now?
- What would I change about them?
- Do I want to be more independent?
- Do I want to be more involved in my community?
- Do I want to make my own decisions about: where I live, who I live with, who helps me?
- Am I willing to take on added risks, responsibilities and duties?
• Do I want to learn how to hire and supervise my workers?
• Do I have people who can help me make plans and choices and keep track of my Medicaid budget account?

My Voice, My Choice isn’t about doing it all yourself. You can ask family and friends to help you self direct. You will also hire a Support Broker to help you write your plan and help you with other duties you decide you need help with.

Your DUTIES when you self direct your services and supports are:

• Tell others about your needs and wants, set your goals, and make decisions during your person centered planning process
• Complete the required paperwork, including a support and spending plan and employment agreements
• Be a boss – find and hire people to work for you, train your workers, and schedule when you want the work done. You also negotiate, make sure they are doing the work you hired them to do and doing the work the way you want it done, sign your workers’ timesheets, and have back-up plans for emergencies
• Buy all supports, services, and goods such as supplies and equipment on your plan through employment and vendor agreements
• Make good choices about how you spend you Medicaid budget account and keep track of your budget account so you don’t over-spend
• Follow all state and federal labor laws
• Follow the rules for self direction found at “Consumer-Directed Services”

My Choice My Voice may not work for everyone. If you choose self direction and it doesn’t work for you, you can use other waiver services. Your health and safety is an important part of My Choice My Voice. You, your family and friends, your support broker and the Department of Health and Welfare will work together to assure that your health and safety needs are met.

Learn what you need to know before you decide My Choice My Voice is right for you. Call your Regional Medicaid Services office for a schedule of informational meetings.

Vocational Rehabilitation Services for Individuals with Disabilities

The Idaho Division of Vocational Rehabilitation works with students with disabilities who need help to transition from school to employment. Vocational Rehabilitation has relationships with schools throughout the state to serve students who need this help. Any student can apply directly for services without or without referral from the school. These individuals must meet the vocational rehabilitation eligibility criteria.

Any individual with a disability that prevents him/her from working or affects them in work may apply. A Vocational Rehabilitation Counselor will assess your situation and determine whether or not you are eligible for VR services.

A person may be eligible if he or she:

- Has a physical or mental disability, which creates a barrier to employment and requires vocational rehabilitation services to get ready for work, get a job, or keep a job; and presumption by a vocational rehabilitation counselor that the individual can benefit in terms of employment; or
- SSI or SSDI recipients who want to be employed.

The Idaho Division of Vocational Rehabilitation's program goal is to place Idahoans with disabilities into the workforce by getting and keeping productive employment. IDVR can provide the services you need to help you to go to work and can help you find a job that is right for you. The program only provides services you need to reach employment.

Services to individuals may include:

- Vocational guidance and counseling for adjustment to disability, vocational exploration, and planning for entry or re-entry into the world of work.
- Assessment to determine vocational strengths and weaknesses to plan for services required to get a job.
- Training for those who need a career change because of disability. This training can include higher education, on the job training, vocational-technical training, etc.
- Tools and licenses can be provided, if needed, to enter a specific trade or profession.
- Medical assistance can be provided, if needed, to get or keep a job and it is part of a comprehensive rehabilitation plan.
- Job development and placement involves you and your Vocational Rehabilitation Counselor, with or without a Community Rehabilitation Program (CRP) working together to get a job.
- Rehabilitation Technology to help you get ready to be on the job site.
Follow-along is important to make sure that your job is successful and can help to find solutions for any job problems that may come up.

Who May Apply?
Any individual with a disability that prevents him/her from working or affects their employment may apply. A VR Counselor will assess your situation and determine whether or not you are eligible for VR services.

How to Apply?
If you, or someone you know, are interested in applying for Vocational Rehabilitation Services, mail a completed Referral Information Sheet to the VR office nearest you, and then call to schedule an appointment to complete your application. To access the Referral Information Sheet, please go to the Vocational Rehabilitation website at http://www.vr.idaho.gov.

What Happens if I Apply?

- Medical/and or psychological information is requested from your doctor or therapist.
- You may be requested to make those contacts and obtain the information yourself.
- Other information or evaluations are secured, if necessary.
- Then, the VR Counselor makes a decision on your eligibility.

Idaho Commission for the Blind and Visually Impaired (ICBVI)

ICBVI works with students with visual impairments from the age of 14. This early start to transition for students with visual impairments allows the student, family, school, and the ICBVI vocational rehabilitation (VR) counselor to identify and address transition needs throughout the student’s high school years.

Any student that is experiencing difficulties related to visual issues should contact the ICBVI VR counselor in their region* to determine if he or she would be eligible for VR services through ICBVI.

WHAT SERVICES ARE AVAILABLE?

Rehabilitation Services

Once a student has met with an ICBVI VR Counselor and has been determined eligible, the student’s counselor will work with the student, family, and school to help identify the services needed for the rehabilitation plan.

A vocational rehabilitation counselor will help to create a program of services that will be most helpful to the student. Services provided may include:

- vocational guidance, assessment and counseling
- training in alternative techniques to blindness
- vocational and academic training, books, tuition, equipment and supplies
- Student Work Experience Program, SYP, and College Days
- job placement and follow-up for success

Summer Work Experience Program (SWEP)

ICBVI offers their transition students the opportunity to participate in a 6 to 8 week program in Boise. The employment offered is competitive employment, helping the students build age appropriate work experience and work habits. In addition to the work experience, students gain confidence and independence needed for successful transition.

College Days

This short course is designed for students planning to attend some level of post-secondary training, community college, or a four-year university. The purpose is to provide them with information about what it takes to be successful in college and the resources available.
Assessment and Training Center

The Assessment Training Center (ATC) in Boise provides intensive instruction in skills needed for a blind or visually impaired person to participate fully in the mainstream of society. The Center's goal is to provide training which will allow the individual to perform any task, on the job or at home, as well as his/her sighted peers. This service is available to transition students once they are 18 years of age or older and can be a critical corner stone for successful transition to further education and employment. It may be possible for a student to attend ATC full time for 1 to 3 terms and then move to part-time ATC and part-time college.

Instruction is available in the following areas:

- activities of daily living
- Braille and communications
- industrial arts
- keyboard and computer
- orientation and mobility/cane travel

For more information about blindness and visual impairment services, contact Bruce Christopherson ICBVI – email to: Bruce Christopherson@icbvi.idaho.gov or call: (208) 334-3220 ext. 110.
